

The Kyoto Young Dam Engineers Award - International Symposium in Kyoto 2012-

10th May 2012

Scientific Committee for International Symposium

Purpose

The Award is aimed at promoting and encouraging young dam engineers to participate in ICOLD activities signifying international and intergenerational exchange in dam technology.

Young dam engineers eligible for the Award

Oral presenters at the International Symposium in Kyoto 2012 under the age of 40

Selection of Award Winners

Chairpersons of each session recommend candidates based on evaluation of excellence in contents and presentation skills. A selection team consisting of three chairpersons of the symposium (Prof. Tetsuya SUMI is its leader) will make the final decision based on the recommendations.

Awarding

Winners will be announced on the 6th of June (day after the Symposium) and are requested to attend the Closing Ceremony of the Congress on the 8th of June to receive the Award and a token of appreciation from the Scientific Committee.

Medals and compliments for Awardees

Medals will be presented to the awardees with ICOLD's compliments bearing next Annual Meeting registration fees for them.
